## Association of Open Group Enterprise Architects

The AOGEA is the definitive professional association for Enterprise Architects. Its goals are to increase job opportunities for all of its members and increase their market value by advancing professional excellence, and to raise the status of the profession as a whole.

#### **Advancing professional excellence**

An Enterprise Architect's skills have to be based on:

- An accepted professional structure
- High standards of expertise
- Recognized best practice
- An assurance that the skills are transferable between enterprises

The requirements for both TOGAF and ITAC certification, either of which qualifies you for professional AOGEA membership, fully satisfy these criteria. Membership signals true professional excellence based on well-established, neutral and internationally recognized benchmarks.

#### **Promoting the profession**

The AOGEA is committed to enhancing the careers of its members through:

- Promoting the value of the Association to employers
- Knowledge sharing and communication within the community
